II.2) Total final value of contract(s)

II.2.1) Total final value of contract(s)

Value: 3,100,000 USD

Excluding VAT

Section IV: Procedure

Type of procedure

Negotiated without publication of a contract notice

Justification for the award of the contract without prior publication of a contract notice

1) Justification for the choice of the negotiated procedure without prior publication of a contract notice

The works/goods/services can be provided only by a particular tenderer for reasons that are:

technical

connected with the protection of exclusive rights

It is considered that for technical reasons this requirement can be placed using the Negotiated Procedure without prior publication of a contract notice pursuant to Regulation 16(1)(a)(ii) of the UK Defence and Security Public Contracts Regulations 2011 (as amended). This is due to the fact that only NG-IT have the expertise and they own the Intellectual Property Rights (IPR). The Combat Electromagnetic Environment Simulator (CEESIM) used in the AMML creates models for ACURL and only NG-IT have the model definitions which utilises their IP to produce the necessary hard/software. The test artefacts AMML produces are a pre-requisite to test all MDFs. Without these test artefacts, MDFs cannot be verified. Verification of MDFs forms part of the operational safety envelope of the F-35. NG-IT is therefore the only supplier that can provide the AMML support required.

Section V: Award of contract

Contract No

701571386

Title

AMML Support

V.1) Date of contract award decision

29 November 2021

V.2) Information about offers

Number of offers received

1

Number of offers received by electronic means

1

V.3) Name and address of economic operator in favour of whom the contract award decision has been taken

Northrop Grumman-IT

1740 Wehrle Drive

Buffalo

NY 14221

Country

United States
