I.4) Type of the contracting authority

Regional or local authority

I.5) Main activity

General public services

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

5G Smart Port Partner

Reference number

DN692029

II.1.2) Main CPV code

- 60640000 - Shipping operations

II.1.3) Type of contract

Services

II.1.4) Short description

The NE7 represent the Northeast local authorities that are coming together to form a new Mayoral Combined Authority. The strengths/growth areas of this Authority are Agriculture, Manufacturing (with associated Transport and Logistics) and Creative Arts.

Together we have bid to the '5G Innovation Regions' competition being run by the Department for Science, Innovation and Technology to deliver a number of projects that will contribute to establishing Northeast England as a national centre of excellence for terrestrial and non-terrestrial 5G use-case development and adoption, accelerating the economic, social and wellbeing impact of advanced digital connectivity through rapid adoption and scale-up across key sectors - whilst boosting economic performance of the region.

South Tyneside Council, a NE7 member, are leading one of these projects which is to innovate in Smart Ports. This procurement is for a Smart Port partner, subject to approval of the bid.

II.1.5) Estimated total value

Value excluding VAT: £1,129,260

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.3) Place of performance

NUTS codes

- UKC - North East (England)

II.2.4) Description of the procurement

This procurement is for a Smart Port Partner who will be required to explore 5G-enabled port operations to improve port competitiveness and safety and reduce environmental impact.

UK ports are actively investing in 5G networks to help to drive sustainable economic growth in the region and support the transition to Net Zero.

This project, which will allow for 5G cameras and IoT sensors to inspect the Port estate, boosting efficiency and reducing fuel usage, will enable ports to drive forward plans to become all-electric.

Once established, 5G infrastructure at ports will be used a testbed for innovation companies to pilot their technology within a port environment to accelerate products for the betterment of the UK maritime sector. We will also disseminate the learnings in real time to our Northeast Ports of Tyne, Blyth, and Sunderland - as well as to wider UK Ports and 5G Ecosystem.

Key deliverables will be

- Mobile AI port safety solution
- Emissions and Asset Monitoring solution
- AI Analytics solution
- Feasibility study for satellite-enabled 5G extensions for port use cases
- Dissemination and learning by all Northeast Ports and UK, through white papers and event attendance

II.2.5) Award criteria

Quality criterion - Name: Quality / Weighting: 55%

Quality criterion - Name: Quality - Social Value / Weighting: 15%

Price - Weighting: 30%

II.2.6) Estimated value

Value excluding VAT: £1,129,260

II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

Start date

4 December 2023

End date

31 March 2025

This contract is subject to renewal

No
