II.2.4) Description of the procurement

The University, whilst still responding to the changing needs of the Covid-19 pandemic is embarking on a period of significant technological development involving several systems that operate across the student journey. Given this important juncture, it will be important to protect BAU recruitment activity, de-risk the programme of systems transformation and take every opportunity to gain ground and so the introduction of a 'recruitment partner' at this time is key to our effective operation.

Tenders are being invited for the supply of a service that will seek to optimise and manage enquiries from prospective students and facilitate and drive a higher rate of conversion from enquiry to application and ultimately from application to enrolment. The University anticipates that the service will be intensely utilised during key student recruitment periods, but will remain engaged throughout the year as needed to ensure support is available for key interest generation and conversion activities. To achieve the above, USW anticipates that the service will maintain close collaboration with the in-house 'Enquiries & Admissions', 'Marketing' and 'Student Recruitment' personnel, alleviating resource pressure points and enabling the team to focus on application processing and decision making activity. The University is seeking to integrate with this service, at pace, in order to realise the greatest enrolment impact in the September 2021 recruitment intake.

The successful supplier(s) will be required to deliver community benefits in support of the University's economic and social objectives. Accordingly, contract performance conditions may relate, in part, to social and environmental considerations. As part of the tendering process the University will be looking at ways that even more value may be obtained and would like to seek community benefits from this tender. Examples of the kind of benefits / opportunities that we would like to see are, for example, e.g. lectures, guest speaker slots, scholarships or perhaps student placements or internships.

When submitting your tender, you will need to submit a plan in a separate word document of how you would anticipate delivering any benefits through this contract. The community benefits will not be scored or evaluated but will be included as a condition of contract with

the successful supplier.
