## **CBRN Remediation Services Framework**

DEPARTMENT OF ENVIRONMENT, FOOD AND RURAL AFFAIRS

UK1: Pipeline notice - Procurement Act 2023 - [view information about notice types](#)

Notice identifier: 2025/S 000-030391

Procurement identifier (OCID): ocds-h6vhtk-0543f3

Published 5 June 2025, 4:58pm

### **Scope**

### **Reference**

P-37668

### **Description**

The Remediation Services Framework is procured, on behalf of UK Government, by the Department for the Environment, Food & Rural Affairs (Defra), Chemical, Biological, Radiation and Nuclear (CBRN) Emergencies Team. The Government will however reserve the right to use other services other than the Framework in the case of CBRN emergency. The Defra CBRN Emergencies Team increases the UK's capacity and capability to respond and recover from deliberate and accidental releases of CBRN materials, and from releases of hazardous materials (HAZMAT) including nuclear accidents, regardless of scale where the incident is in excess of local capability and/or knowledge and authorities request help from Defra services. These services include advice, guidance and access to practical CBRN recovery services to support those who will be responsible for remediation. Defra is seeking to establish a framework agreement of specialist suppliers to provide contingency remediation and related services in the areas of CBRN contamination. Scope of service is to supply, transport, deploy and implement remediation and waste management service(s) for use by the Contracting

Authority in a CBRN or HAZMAT incident. 'CBRN' is the abbreviation commonly used to describe the deliberate or malicious use of Chemical, Biological, Radiological and Nuclear materials or weapons with the intention to cause significant harm or disruption. HAZMAT refers to a material that would be a danger to life or to the environment if released - whether deliberately or accidentally - without precautions. As this is a contingency service, the framework total value will be determined by the number and severity of CBRN incidents and cannot be predicted. In addition to incident spend values, Defra spend is up to £600k per annum on exercise and capability related work across Lots 1 to 7 of the Framework Agreement. The Environment Agency spend on HAZMAT incidents is expected to be approximately £300k per annum through Lot 8, but this will also be determined by number and severity of incidents.

## **Commercial tool**

Establishes a framework

## **Total value (estimated)**

- £20,000,000 excluding VAT
- £24,000,000 including VAT

## **Contract dates (estimated)**

- 1 April 2026 to 31 March 2034
- 8 years

## **Main category**

Services

## **CPV classifications**

- 90722200 - Environmental decontamination services

---

## **Participation**

### **Particular suitability**

Small and medium-sized enterprises (SME)
