Conflicts assessment prepared/revised

Yes

Procedure

Procedure type

Direct award

Special regime

Utilities

Direct award justification

Single supplier - technical reasons

A Transparency notice was issued which allowed potential suppliers to approach us should they be able to provide the same service that London Underground provides to Network Rail with their Emergency Response Units. A Contract Award Notice was subsequently published and following the mandatory standstill period no other supplier submitted a challenge to this procurement which leads us to confirm our belief that at this time, the required service is bespoke to railway operations and that only LUL have the resources and appropriate competencies available to Network Rail to respond within minutes of an emergency incident occurring.
