Section II: Object

II.1) Title attributed to the contract by the contracting authority/entity:

Rapid Capabilities Office and Air Capability Industry Engagement: Low-Cost

Uncrewed Air Systems (LANCA Follow-On)

II.2) Type of contract and location of works, place of delivery or of performance

Supplies

II.4) Short description of nature and scope of works or nature and quantity or value of supplies or services

Following the lessons learned from Project MOSQUITO, Project ALVINA, and wider Uncrewed Air Systems (UAS) experimentation, the Rapid Capabilities Office (RCO) and Air Capability are considering how to best exploit Low-Cost UAS to support the Combat Air Force Mix as part of follow on LANCA activity and wider Uncrewed System Development.

The Authority will be holding an engagement day on Tuesday 29th November 2022 to inform Industry of Air's intent for additive/adjunct capability in the Combat Air Force Mix, and to provide Industry Partners with the opportunity to consider how they could best contribute to Air's intent within a subsequent R&D portfolio.

This engagement will likely be of interest to Industry Partners who specialise in any of the following: UAS design and manufacture, propulsion, systems integration,

navigation, communication, Electronic Warfare (EW) payloads (active and passive), autonomy, command and control, airworthiness and certification.

II.5) Common procurement vocabulary (CPV)

- 35613000 - Unmanned aerial vehicles
