The ICELS complements other Council services such as reablement and domiciliary care support, with the aim of promoting independence and to enable people to gain, regain and maintain skills, as well as helping prevent hospital admissions. There is a sustained increase in demand for faster delivery of community equipment to support the Home First ambition and the Discharge to Assess pathways. Essex County Council are looking to procure a streamlined, cost-effective, efficient, and responsive community equipment service for Essex, which aims to deliver social value and climate action as a fundamental part of the service and will bring the service in line with the requirements of today's health and care system.

The new ICELS contract to which this tender relates is due to be mobilised and operational for 1st July 2023.
