II.1.4) Short description

NHS England is establishing a framework agreement for the provision of Digital Pathways solutions and associated capabilities for primary care IT, and which utilises a refreshed set of solution capability requirements.

The scope of the Digital Pathways services and systems covers the following Capabilities (as more particularly described <https://gpitbjss.atlassian.net/wiki/spaces/DPL/overview>):

- Care Navigation – supporting the ability to get patients the right support at the right time to help manage a range of needs.
- Online Consultations and Online Patient/Service User Request Reporting – supporting the provision of data collection, reporting and display ('dashboard').
- Online Patient/Service User Request – supporting the ability to raise and respond to administrative requests from Patients (or their representative) or a Service User.
- Online Patient/Service User Consultation – supporting the interaction between a patient (or their representative) and a Service User, including requests for support, capturing information on behalf of a patient and verifying their details.
- Cross-Organisational – Appointment Booking – enabling appointments for patients and service users to be booked by health/care professionals across organisational boundaries.
- Prescription Ordering – Citizen – enables Patients to request for a repeat medication (recorded in the 'Prescribing' capability) to be issued online.
- Video Consultation – enables Health or Care Professionals to conduct secure live remote Video Consultations with individual or groups of Patients/Service Users, ensuring they can receive support relating to healthcare concerns when a Video Consultation is most appropriate.
- View Record – Citizen - enables Citizens to view content from their Electronic Patient Record (EPR) online (to integrate with 'Patient Information Maintenance - GP Solution')

capability).

- Communication Management – supports the delivery of communications to recipients.
