Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Deer & Other Wildlife Management Services

Reference number

CO224

II.1.2) Main CPV code

- 77300000 - Horticultural services

II.1.3) Type of contract

Services

II.1.4) Short description

Forestry & Land Scotland (FLS) undertakes deer and other wildlife management on Scotland's National Forest and Land (SNFL) to protect tree crop and designated sites from the adverse impacts of grazing/browsing herbivores. This protection increases the volume and quality of timber brought to market, enables woodland creation and protects and enhances biodiversity through habitat protection.

The aim of this contract is to procure deer and other wildlife management services. These services will assist FLS in reducing and maintaining deer and other wildlife at sustainable densities across the SNFL through culling in a humane, safe and cost effective manner. These services are to be delivered in conjunction with the culling duties of FLS Wildlife Staff.

Carcasses of deer and some other animals are sold into the human food chain and therefore the larding of carcasses must be undertaken in accordance with Scottish Quality Wild Venison Assurance Scheme (SQWVAS) standards.

The scope of this contract is primarily for deer culling. The culling of feral pig, feral goat and feral sheep is required on an opportunistic basis only. FLS reserves the right to deliver or procure a targeted feral pig, feral goat and/or feral sheep cull.

Culling must be by centre fire rifle. Shotguns are not permitted.

The contract term is five years commencing 1st May 2022 with an additional optional one year extension available at the discretion of FLS.

Regulation 72(1): FLS may modify the Contract, irrespective of the monetary value of those modifications, within the scope permitted under Regulation 72(1)(a) of The Public Contracts (Scotland) Regulations 2015 should Operational reasons require it. Actual requirements can vary due to changes in:

Deer ingress;

Significant weather patterns impacting deer density;

Forest block acquisition or disposal within the lot boundary;

Taking responsibility for an FLS Staff block;

Any disease or tree health issue;

A change in Scottish Government or FLS strategies;

Scottish Governments response to the Deer Working Group and any associated changes to published best practice and legislation;

Any collaborative culling agreement;

Receipt of additional funding;

Standards associated with the preparation of carcasses and sale of bi- products to meet FLS business need;

NatureScot legislative, regulatory or collaborative requirements;

Scottish Governments response to COVID-19.

Question Scoring Methodology for Technical Criteria:

0 - Unacceptable - Nil or inadequate response. Fails to demonstrate an ability to meet the requirement.

25 - Poor - Response is partially relevant and poor. The response addresses some elements of the requirement but contains insufficient/limited detail or explanation to demonstrate how the requirement will be fulfilled.

50 - Acceptable - Response is relevant and acceptable. The response addresses a broad understanding of the requirement but may lack details on how the requirement will be fulfilled in certain areas.

75 - Good - Response is relevant and good. The response is sufficiently detailed to demonstrate a good understanding and provides details on how the requirements will be fulfilled.

100 - Excellent - Response is completely relevant and excellent overall. The response is comprehensive, unambiguous and demonstrates a thorough understanding of the requirement and provides details of how the requirement will be met in full.

Any Bidder that receives a score of zero or one for one or more Technical Question will be excluded from the tender.

II.1.5) Estimated total value

Value excluding VAT: £27,000,000

II.1.6) Information about lots

This contract is divided into lots: Yes

Tenders may be submitted for maximum number of lots

2

Maximum number of lots that may be awarded to one tenderer: 2

II.2) Description

II.2.1) Title

North A

Lot No

1

II.2.2) Additional CPV code(s)

- 77300000 - Horticultural services

II.2.3) Place of performance

II.2.4) Description of the procurement

The service required is deer and wildlife management on Scotland's National Forest & Land. This includes the culling, gralloching, transporting and larding of deer in accordance with the specification requirements.

Contractors must provide the managerial oversight required to ensure delivery and full compliance with all specification requirements by any direct employees and/or Subcontractors. Managerial oversight of contract performance is regarded as a critical task which must be performed directly by the bidder and not subcontracted.

The service must be provided throughout the year. Contractors must be prepared and equipped to deliver culling services over difficult terrain and in adverse weather conditions.

All land assigned as Contractor responsibility for any given year of the contract term must be attended frequently for the purposes of service delivery.

Minimum Guaranteed Annual Cull Target: 2500

II.2.5) Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6) Estimated value

Value excluding VAT: £2,800,000

II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

Start date

1 May 2022

End date

30 April 2028

This contract is subject to renewal

Yes

Description of renewals

Contract duration includes an optional one year extension.

II.2.10) Information about variants

Variants will be accepted: No

II.2.11) Information about options

Options: No

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

II.2.14) Additional information

Economic operators may be excluded from this competition if they are in any of the situations referred to in Regulation 58 of the Public Contracts (Scotland) Regulations 2015.

<https://forestryandland.gov.scot/images/researchandresources/procurement/Procurement-Supplier-Guidance-for-PCS-Tender.pdf>

The Supplier Developer Programme is available to assist Suppliers with public procurement including training events:

<https://www.sdpscotland.co.uk/region/public-bodies-forestry-commission/>

The buyer is using PCS-Tender to conduct this ITT exercise. The Project code is 20170. For more information see:

<http://www.publiccontractsscotland.gov.uk/info/InfoCentre.aspx?ID=2343>

The Contracting Authority does not intend to include a sub-contract clause as part of community benefits (as per Section 25 of the Procurement Reform (Scotland) Act 2014) in this contract for the following reason:

It will be encouraged for prime contractors to advertise sub-contracting opportunities via PCS, however it will not be mandated as use of PCS to advertise sub-contracting opportunities is not intended to cut across supply chain arrangements that the prime contractor may already have in place. The PIN responses and sub-contracting pattern have evidenced an established sub-contracting network. Whilst it does represent best practice, use of PCS in this instance is unlikely to add any additional value and may delay mobilisation.

Community benefits are included in this requirement. For more information see: <https://www.gov.scot/policies/public-sector-procurement/community-benefits-in-procurement/>

A summary of the expected community benefits has been provided as follows:

The successful supplier(s) will be expected to present a community benefit proposal with their tender detailing how, in the event that they should be successful in winning the contract/, they will address Community Benefits.

The Community Benefit proposed for this contract should be provided specifically if successful in this tender process and should not be a Community Benefit which is already being undertaken by the organisation.

Examples of Community Benefits include:

Targeted recruitment and vocational training initiatives;

Supporting Educational initiatives for example offering work experience placements/school visit to explain what you do/routes to getting into the profession etc. in local schools;

Supply chain initiatives/development;

Support or Funding for Community and/or Environmental initiatives which may be taking place in the local community;
