- 72000000 - IT services: consulting, software development, Internet and support

**II.1.3) Type of contract**

Services

**II.1.4) Short description**

Oxfordshire County Council, funded by the Department of Health and Social Care (DHSC), is

seeking to create an online portal for Social Care providers in the Southeast (SE) region.

The main goal of this project is for the selected Supplier to develop a platform that

addresses the specific challenges and needs of social care providers around International Recruitment.

The successful Supplier will develop and operate this new Social Care Portal within the budget limit that has been set.

The budget available for this solution is finite and tenderer's solutions for provision of the portal, along with the support and maintenance must be within the budget that has been set.

Tenderers should note the pricing threshold of £275,000 exclusive of VAT.

The Council is only seeking responses from Tenderers who have a Commercially Off The Shelf (COTS) solution. Such a solution must be available at the time their submission is made.

The Council expects to award this contract prior to the Christmas break, the successful Supplier is expected to configure the solution in January 2024 and to then operate the solution for a minimum period of 2 months ending 31st March 2024.

Whilst the Contract Term has only a short duration the Council expects that Tenderer's will

wish to provide a solution which is capable of operation beyond the Term of this contract under terms that they will agree with users of the system

No variants will be accepted.
