---

## **Section IV. Procedure**

### **IV.1) Description**

#### **IV.1.1) Type of procedure**

Award of a contract without prior publication of a call for competition in the cases listed below

- The procurement falls outside the scope of application of the regulations

Explanation:

These three services currently carry 169,922 passenger journeys per year<sup>2</sup>. Their removal would therefore cause many people to struggle to get to their place of education or work as well as other key facilities such as shops and health services. In addition, tourists may also be put off visiting the area, impacting on local businesses as a result. Given the significance of these services for workers, residents, and tourists alike, it is proposed the Council subsidise these services financially for an agreed period.

The primary objective is to retain these three commercial services through financial support for an agreed period. This financial support will give Operators the opportunity to return these services back to commercial viability and/or allow the Council to review these services in line with the Bus Service Improvement Plan (BSIP) funding options for new and enhanced services.

#### **IV.1.8) Information about the Government Procurement Agreement (GPA)**

The procurement is covered by the Government Procurement Agreement: No

---
