II.1.1) Title

Norfolk Community Learning Disability and Intensive Support Service

Reference number

NW202469

II.1.2) Main CPV code

- 85100000 - Health services

II.1.3) Type of contract

Services

II.1.4) Short description

NHS Norfolk and Waveney Integrated Care Board is inviting suitably qualified and experienced providers to express their interest in delivering a Norfolk Community Learning Disability and Intensive Support Service

The Community Learning Disability Service will work with all people with a learning disability registered with a GP in Norfolk. To access the services of Tier 3 and Tier 4 of the service specification, adults must be 18+.

To classify as severe learning disability, the following features must be present:

- A significantly reduced ability to understand new or complex information or learn new skills (impaired intelligence).
- A reduced ability to cope independently (impaired social functioning).
- This must begin before adulthood, with a lasting effect on development.

This definition encompasses people with a broad range of disabilities. The presence of a low intelligence quotient, for example an IQ below 70, is not itself, a sufficient reason for deciding whether an individual should be provided with additional health and social care support.

We also want the Community Learning Disability Service to advise, guide, up-skill and raise awareness with social care provision and primary care. In these instances, these cases may be for a wider spectrum of people rather than just those with a severe learning

disability.

Service Aims

- Supporting access to mainstream health services.
- Enabling others to deliver high-quality, person-centered care.
- Delivering direct therapeutic interventions.
- Positive response to crisis situations.
- Quality assurance.
- Strategic service development and transformation in support of commissioners..

This is a 3 year contract with the option to extend for up to an additional 2 years. The contract has an annual value of £6.614m per annum.

The Contracting Authority will be using an eTendering system for this market testing exercise. Further information and the expression of interest documentation can be found via the 'Live Opportunities' list on the e-procurement system at the following link: <https://health-family-contract-search.secure.force.com/?searchtype=Projects>. You can search for the opportunity by entering the following contract ref C309175.

II.1.5) Estimated total value

Value excluding VAT: £33,070,000

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.2) Additional CPV code(s)

- 85323000 - Community health services

II.2.3) Place of performance

NUTS codes

- UKH1 - East Anglia

Main site or place of performance

Norfolk and Waveney

II.2.4) Description of the procurement

The objectives of this project are to commission a Norfolk Community Learning Disability

and Intensive Support Service across the Norfolk & Waveney ICB region. To include LD Community Service in Norfolk, LD Psychiatry Service in Norfolk, and the LD Intensive Support Service which covers both Norfolk & Waveney. These services provide the community and secondary health services required for adults with a learning disability. Prevalence data suggests about 8,000 people live in Norfolk with a severe learning disability.

The objective is to provide a new service model aligned to the NHSE Service model Building the Right Support and the National Service Model of 2015. As part of the procurement process, we will ensure robust market and service user engagement to collect feedback to shape, integrate and improve the service. A particular focus of integration we will explore the benefits of partnership working between the LD Community service and Norfolk adult social care

The Community Learning Disability Service will work with all people with a learning disability registered with a GP in Norfolk. To access the services of Tier 3 and Tier 4 of the service specification, adults must be 18+.

To classify as severe learning disability, the following features must be present:

- A significantly reduced ability to understand new or complex information or learn new skills (impaired intelligence).
- A reduced ability to cope independently (impaired social functioning).
- This must begin before adulthood, with a lasting effect on development.

This definition encompasses people with a broad range of disabilities. The presence of a low intelligence quotient, for example an IQ below 70, is not itself, a sufficient reason for deciding whether an individual should be provided with additional health and social care support.

We also want the Community Learning Disability Service to advise, guide, up-skill and raise awareness with social care provision and primary care. In these instances, these cases may be for a wider spectrum of people rather than just those with a severe learning disability.
