## **Supply and Maintenance of a Cord Blood Cell Separation System and associated consumables**

NHS Blood and Transplant

UK4: Tender notice - Procurement Act 2023 - [view information about notice types](#)

Notice identifier: 2025/S 000-030890

Procurement identifier (OCID): ocds-h6vhtk-054528 ([view related notices](#))

Published 9 June 2025, 11:50am

### **Scope**

### **Description**

NHS Blood and Transplant is leading a procurement for the provision and maintenance of a Cord Blood Cell Separation System and associated consumables. We are looking to appoint one (1) Supplier for the provision of this requirement. The Cord Blood Bank (CBB) forms part of the Clinical Services Directorate of NHSBT. The CBB laboratory provides services to support haematopoietic stem cell transplantation including collection, processing and cryopreservation of cord blood derived stem cells. Cord blood is rich in blood stem cells, similar to those found in bone marrow, and these can be used to treat many different cancers, immune deficiencies and genetic disorders. For the transplant to be a success, stem cells taken from the cord blood must match the patient's tissue type as closely as possible.

### **Total value (estimated)**

- £494,752 excluding VAT
- £593,702 including VAT

Above the relevant threshold

### **Contract dates (estimated)**

- 1 September 2025 to 31 August 2029
