II.2.4) Description of the procurement

The University of Leicester is a leading UK university committed to international excellence through the creation of world changing research and high quality, inspirational teaching. Leicester is consistently one of the most socially inclusive of the UK's leading universities with a long-standing commitment to providing fairer and equal access to higher education.

Tenders are invited from suppliers wishing to be part of a framework agreement for the provision of Next Generation Sequencing (NGS), Third Generation Sequencing and Sanger sequencing services. This agreement will support our research and academic endeavours by ensuring access to high-quality, reliable, and advanced sequencing technologies. The successful tenderers will demonstrate excellence in delivering comprehensive sequencing services, including but not limited to whole genome sequencing, exome sequencing, RNA sequencing, and other specialized applications. Through this procurement process, the University aims to establish a flexible and efficient framework agreement with up to 5 suppliers that offers competitive pricing, robust data management, and comprehensive technical support, ensuring the highest standards in genomic research.

The framework agreement will last for 3 years with an option to extend for a further year.
