Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Award of a contract without prior publication of a call for competition in the cases listed below

- The services can be provided only by a particular economic operator for the following reason:
 - absence of competition for technical reasons

Explanation:

The Western Health and Social Care Trust are relying on regulation 32(2)(b), competition is absent for technical reasons. Illumina is the sole supplier of this specific high throughput sequencing technology/ platform. Illumina sequencing technology, sequencing by synthesis (SBS), is a widely adopted next-generation sequencing (NGS) technology worldwide. Illumina sequencing instruments and reagents support massively parallel, high-throughput sequencing using a proprietary method that detects single bases as they are incorporated into growing DNA strands. Nextseq2000 provides higher sensitivity to detect low-frequency variants, faster turnaround time for high sample volumes, comprehensive genomic coverage, lower limit of detection, higher capacity with sample multiplexing, ability to sequence hundreds to thousands of genes or gene regions simultaneously.

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes

Section VI. Complementary information

VI.3) Additional information

On September 29, 2022, a VEAT was published (Notice reference 2022/S 000-027286), and no challenges were received within the ten-day standstill period. The initial VEAT was only for the purchase of the equipment, but the Contract Award Notice includes subsequent maintenance, which will be paid for by CTRIC rather than the Western Health and Social Care Trust, thus the disparity in values.
