II.2.4) Description of the procurement

The aim of the DESP programme is to reduce the risk of sight loss amongst people with diabetes by the prompt identification and effective treatment, if necessary, of sight threatening diabetic retinopathy, at the appropriate stage during the disease process.

The Service being commissioned should align to the National Diabetic Eye Screening Service Specification which aims to ensure a consistent and equitable approach across England, and to govern the provision and monitoring of the DESP. The indicative eligible population is 113,247

The Service will need to undertake and perform the following objectives in order to meet the commissioning and Service Specification requirements:

- Identify the eligible population and ensure effective delivery with maximum coverage.
- Deliver safe, effective, high quality, externally and independently monitored, and quality assured Diabetic Eye Screening Programme.
- Lead to earlier detection, appropriate referral, effective treatment and improved outcomes.
- Deliver and support through suitably trained, competent, and qualified, clinical and non-clinical staff who, where relevant, participate in recognised ongoing continuing medical education (CME), continuous Professional Development (CPD), and Quality Assurance (QA) schemes; as well as have regular audits embedded within the service.

The provision of DESP is delivered in line with the following aims of the NHS long term plan

- Improve public health outcomes and reduce health inequalities.
- Contribute to a more sustainable public health, health and care system.

The DESP programme also contributes to the public health outcomes framework which aims to improve and protect the nation's health and wellbeing and to improve the health of the poorest, fastest.
