9001907

Description

Located on the Harwell Science and Innovation Campus in Oxfordshire, Diamond Light Source (DLS) is a leading-edge facility for science, engineering and innovation. Diamond allows researchers from academia and industry to investigate the structure and behaviour of the world around us at the atomic and molecular level.

To continue delivering the world changing science that Diamond enables, the facility is being upgraded to Diamond-II, a coordinated programme of development that combines a major

machine upgrade with new instruments and complementary improvements to optics, detectors, sample environment and delivery capabilities, and computing, as well as integrated and correlative methods. This will be transformative in speed and spatial

resolution and will offer users streamlined access to enhanced instruments for life and physical sciences.

The scope of this contract is to carry out the detailed design, manufacture, quality control, magnetic measurements and delivery to Diamond of a total of 160 ferrite-cored Fast

Corrector Magnets of two different types, including 1 pre-series magnet of each type, in accordance with the specification.

Contract 1. 9001907 - Fast Corrector Magnets for Diamond-II Storage Ring

Supplier

- Danfysik

Contract value

- £417,611.84 excluding VAT
- £501,134.21 including VAT

Above the relevant threshold

Date signed

2 June 2025

Contract dates

- 2 June 2025 to 16 November 2026
- 1 year, 5 months, 15 days

Main procurement category

Goods

CPV classifications

- 31630000 - Magnets

Contract locations

- UKJ14 - Oxfordshire

Justification for not setting key performance indicators

Contract value is below £5 million.
