NUTS codes

- UKJ4 - Kent

#### **II.2.4) Description of the procurement**

This service is for the provision of a Crisis Houses service.

The objectives of this project are to commission two Adult Mental Health Crisis Houses in Kent and Medway. These crisis houses will be for when someone is experiencing a period of

acute psychological distress, associated with a mental health problem (which may or may not have been given a formal diagnosis). The crisis may be a sudden deterioration of an existing mental health difficulty or they may be experiencing mental health difficulties for the

first time. They need immediate treatment and/or care and/or support in order to prevent further deterioration in their mental or physical wellbeing and to help avoid hospital admission.

The rationale for the development of this service centres around how it can:

1) Provide positive outcomes for people in Psychological or Mental Health Crisis who require urgent and intensive support.

2) Provide an alternative to an Acute Psychiatric Inpatient Admission

3) Reduce impact on the wider Mental Health Urgent and Emergency Care services (Liaison Psychiatry, Rapid Response, Home Treatment, Section 136 Health Based Place of Safety.

Inpatient Services)

Delivered by the VCSE a Crisis House is a service that offers short-term residential mental

health crisis interventions and support for a duration of up to 7 days, for individuals who are

experiencing mental health crisis. Analysis of local NHS Mental Health inpatient admissions

evidences a cohort of inpatients whose needs could be met in a Crisis House as an alternative to inpatient admission which will offer significant benefits to service users.

Crisis Houses can prevent possible hospital admission and ensure only those who are acutely

unwell or at very high risk of suicide are admitted to hospital. Crisis Houses are embedded

within a number of ICSs, with a number of positive outcomes including high service user satisfaction and decreased reliance upon acute inpatient admission. Underpinning the philosophy of Crisis House provision is social inclusion and linking with the wider VCSE service provision.

## **II.2) Description**

### **II.2.1) Title**

Lot 2 - Safe Havens

Lot No

2

### **II.2.2) Additional CPV code(s)**

- 85100000 - Health services

### **II.2.3) Place of performance**

NUTS codes

- UKJ4 - Kent

### **II.2.4) Description of the procurement**

The service is for the provision of Safe Havens across Kent & Medway

The objective of this project is to commission 9 Safe Havens across K&M, 2 of which will be open 24/7 and co-located within a General Acute Hospital site. Individuals can stay up to 24hrs in the 2 co-located Safe Havens. This will enable 24/7 provision across the County.

Psychiatric Liaison Mental Health Triage Nurses can redirect individuals attending Emergency Departments (ED) with primary mental health problems who do not require a physical health intervention. The 7 community based safe havens will be open 7 days a week from 18.00 – 23.00 providing out of hours support for people in a self-defined crisis who are likely to have called 999 or 111 and been conveyed or directed to or self-presented at A&E for mental health assessment.

The service specification has developed as part of the Kent and Medway Provider Collaborative partnership with agencies and services across the Kent and Medway System, including: -

- VCSE Organisations
- Acute Hospital Trusts, EKHUFT, MTW, DVH and MFT
- Mental Health Provider Trust
- Kent Police
- South East Coast Ambulance Services
- Placed Based Health Care Partnerships

The rationale for the development of this service centres around how it can:

1) Provide positive outcomes for people in Psychological or Mental Health distress who require urgent emotional support.

2) Provide an alternative to attending A&E

3) Reduce impact on the wider Mental Health Urgent and Emergency Care services (Liaison

Psychiatry, Rapid Response, Home Treatment, Section 136 Health Based Place of Safety.

Inpatient Services)

4) Reduce impact on 'Blue Light' services, specifically calls to 111 and 999 and ambulance

conveyance

The service is in line with NHS England's Long-Term Plan and will involve the development of partnership agreements, Escalation Policies and procedures, service standards, Standard

Operating Procedures and pathways to ensure that people experiencing urgent mental health needs in K&M can access a range of crisis alternatives and a safe place to receive a

supportive offer in the community.

This service has been designed taking into account learning from Safe Haven Providers and

Service Users across the Country, along with engagement of people with lived experience and professionals who have fed in their views to help shape this draft specification and emerging model.

The service will be resourced by a suitable experienced Provider who has demonstrated that they can meet the contract requirements and deliver good outcomes for local people. The service will be supported with clinical in reach from statutory services – this model will be coproduced by local partners to agree on what this looks like and reviewed on an on-going basis
