II.2.4) Description of the procurement

The Supplier will support departments across the Council in appraising, planning and delivering their capital projects outlined in the Place Shaping and affordable house building programmes. This support will range from informal advice through to land/development appraisals, contractual negotiations, site investigation works and project management.

A major element of CCBC's Place Shaping is the affordable house building programme being delivered by Caerphilly Homes (the Housing Services division of CCBC). This programme aims to increase the number of homes within CCBC's stock portfolio to meet an ever-increasing need, with a current aspiration of 100 new affordable, low carbon, high quality homes being built each year for the next ten years.

To assist the Council in delivering the Place Shaping and affordable house building programmes, the Supplier will work with the Council to maximise the availability of resources and effectively manage risk to create a sustainable forward work programme. This will involve developing a clear understanding of the Council's assets (such as land, buildings and infrastructure) and their development potential, along with providing multi-disciplinary development support to progress viable sites and/or projects.
