Published 10 June 2025, 4:05pm

Changes to notice

This notice has been edited. The [previous version](#) is still available.

Scope

Description

RSSB is planning to commission research to improve operational and development decisions for current and future RCM systems and optimise their data outputs cross-

industry. This T1386 work aligns with the current initiatives within the Efficient and Reliable Assets of the 2025 Rail Technical Strategy through the review of current asset monitoring challenges and development of an open-format RCM data protocol for further adoption of RCM solutions.
