II.2.4) Description of the procurement

The aim of this service is to deliver an individual placement and support employment service for people with severe mental health issues, based in secondary mental health teams and primary care, across Norfolk and Waveney ICS.

The employment specialist will work in close collaboration with clinical staff. They will also work with employers to seek employment opportunities for individuals and with any individuals who express an interest in employment to achieve an employment outcome.

The service will deploy Employment Specialists (ES's) into the secondary mental health teams. ES's will also work with (and be integrated to) Primary Care Networks, as part of the Community Transformation Programme. The ES's will provide employment support in line with the principles of Individual Placement and Support (IPS).

IPS has been identified by both DWP and NHS England as a promising intervention to address unemployment within mental health. IPS is a replicable, evidence-based, supported employment programme that has been shown to deliver superior employment and health outcomes for people with severe mental health problems.

The IPS approach is based on eight key principles:

1. It aims to get people into competitive employment
2. It is open to all those who want to work
3. It tries to find jobs consistent with people's preferences
4. It works quickly
5. It brings employment specialists into clinical teams
6. Employment specialists develop relationships with employers based upon a person's work preferences
7. It provides time unlimited, individualised support for the person and their employer
8. Benefits counselling is included
