II.2.4) Description of the procurement

Following a detailed review of the end-to-end Car Parking processes across Manchester Airport Group, it has been determined that a programme will begin to consider a Group service provider for barrierless forecourts and car parking.

The direction of travel across MAN, EMA and STN suggests barrierless technology being a necessity on forecourts and in car parks. The Programme must ensure the end outcome is one of income growth and not putting existing revenue at risk

MAG are issuing a questionnaire to seek the market's views on the creation of a barrierless solution across MAG's forecourts and carparks as well as potentially operating a hybrid solution such as barrierless forecourts and barrier pre-book car parks. The overarching aim is to:

- Protect Revenue
