Country

United Kingdom

NUTS code

UKM6 - Highlands and Islands

Internet address(es)

Main address

<http://www.hial.co.uk>

Buyer's address

https://www.publiccontractsscotland.gov.uk/search/Search_AuthProfile.aspx?ID=AA13542

I.3) Communication

Additional information can be obtained from the above-mentioned address

I.6) Main activity

Airport-related activities

Section II: Object**II.1) Scope of the procurement****II.1.1) Title**

Replacement DVOR Electronics at Kirkwall Airport

Reference number

HIA-1579

II.1.2) Main CPV code

- 34964000 - Doppler VHF Omni direction Range (DVOR)

II.1.3) Type of contract

Supplies

II.1.4) Short description

The DVOR at Kirkwall Airport is reaching the end of its life. A DME is co-located with the DVOR. Replacement of the DVOR and associated Remote Control and Monitoring System is required. HIAL believes it will be possible to re-use some, or all, of the existing infrastructure including the counterpoise, cabin, electrical systems and intersite connectivity.

II.1.5) Estimated total value

Value excluding VAT: £500,000

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.2) Additional CPV code(s)

- 34965000 - Distance Measuring Equipment (DME)
- 44211110 - Cabins
- 32352000 - Aerials and reflectors

II.2.3) Place of performance

NUTS codes

- UKM65 - Orkney Islands

Main site or place of performance

Kirkwall Airport

II.2.4) Description of the procurement

HIAL requires the capability to provide a DVOR service within the published DOC. User and technical system requirements will be defined in due course.

The capability shall be delivered compliant to all applicable regulations, with minimal impact on Kirkwall Airport's operations, by upgrading, replacing or adding to the core components of the current DVOR.

HIAL believes it will be possible to re-use some, or all, of the existing infrastructure including the counterpoise, cabin, electrical systems and intersite connectivity, with the caveat that these are part of a system installed 30 years ago and will have aged accordingly.

It is expected therefore that the successful technical solution will involve the replacement of the DVOR electronics and associated Remote Control and Monitoring System and the re-use or replacement of each of the existing cabin, counterpoise and DME. However, at this stage, HIAL welcomes suggestions for alternative approaches which may deliver better value.

HIAL's tender evaluation criteria will be weighted in favour of solutions which reduce cost and waste and minimise impact to the environment.

It should be noted that the DVOR and DME antennas are to remain at the current coordinates to avoid any need for an airspace change proposal.

It should be noted that, due to the impact on instrument approaches, ACP etc. the DVOR and DME antennas are to remain at the same current coordinates.

II.3) Estimated date of publication of contract notice

11 January 2023

Section IV. Procedure

IV.1) Description

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes

Section VI. Complementary information

VI.3) Additional information

Suppliers are requested to respond to this notice by completing the attached RFI Response Template and submitting by email to procurement@hial.co.uk on or before 9 December 2022. HIAL does not guarantee that it will be able to take account of responses submitted after the closing deadline.

NOTE: To register your interest in this notice and obtain any additional information please visit the Public Contracts Scotland Web Site at https://www.publiccontractsscotland.gov.uk/Search/Search_Switch.aspx?ID=707125.
