UHM-TAR

Description

Urban Habitat Mapping has developed as part of the England Green Infrastructure Mapping Database over the last 4 years. A set of pilot and trialling exercises has produced data across a range of urban areas in England. As the project has developed, data has been produced using a series of adapted methods. This project will produce a "final" method by integrating some adjustments into a final approach for use in the Trimble eCognition software environment. The final method will then be used to adjust (and where necessary reprocess) the data for all areas that are currently covered by the Urban Habitat Mapping. Shapefiles of the Areas of interest are available on request. These files provide the outline of the actual area to be mapped and give area size. The project is anticipated to begin in late July 2025

and be completed by the end of February 2026.

Total value (estimated)

- £41,667 excluding VAT
- £50,000 including VAT

Below the relevant threshold

Contract dates (estimated)

- 24 July 2025 to 27 February 2026
- 7 months, 4 days

Main procurement category

Services

CPV classifications

- 73110000 - Research services

Contract locations

- UK - United Kingdom

Submission

Tender submission deadline

11 July 2025, 12:00pm

Submission address and any special instructions

To apply for this opportunity you must submit your quotation meeting the requirements detailed in the Request for Quotation (RFQ) attached.

Your response must be sent to Martin.Moss@naturalengland.org.uk by 12 midday on 11/07/2025.

If you have any clarification questions linked to this opportunity or the procurement process please submit these via email to Martin.Moss@naturalengland.org.uk. Please note that, unless commercially sensitive, both the question and the response will be circulated to all tenderers.

Tenders may be submitted electronically
