General public services

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Firepool Development, Taunton: Drainage and Levels Works

Reference number

DN588465

II.1.2) Main CPV code

- 45200000 - Works for complete or part construction and civil engineering work

II.1.3) Type of contract

Works

II.1.4) Short description

The Works comprise the design and construction of the primary infrastructure and bulk earthworks to facilitate the development of the Firepool site in Taunton in accordance with the drawings, specifications and documents set out at Appendix A.

The Works are being procured as a Traditional Construction package and as such design work has been completed ahead of the tender package issue.

The proposed development of the Firepool site requires some significant preparation of the site to remove obstacles, including demolition work, sewer diversions, ground contamination remediation, and construction of serviced platforms and principle drainage infrastructure. The Enabling Works package seeks to undertake the site wide clearance and groundworks to facilitate future parcel development on the site.

The works are set to include:

Demolition of the existing Auction House building and associated hardstandings

Diversion of existing public surface water and combined sewer assets within the site

Site clearance of above ground obstructions and remnants of previous site development

Bulk earthworks to raise the site levels for flood protection and to provide platforms for future parcels

Construction of new primary foul and surface water drainage infrastructure to service the site including a new outfall to the River Tone

Delivery of a new flood relief culvert to pass overland flows through the raised site

Diversion of existing utilities affected by the works

Reinstatement of a combined footway/cycleway through the site

Re-securing of the site with existing fencing and supplemental fencing

Construction of a temporary surface to the Firepool car park after re-levelling

II.1.5) Estimated total value

Value excluding VAT: £3,500,000

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.3) Place of performance

NUTS codes

- UKK23 - Somerset

II.2.4) Description of the procurement

The Works comprise the design and construction of the primary infrastructure and bulk earthworks to facilitate the development of the Firepool site in Taunton in accordance with the drawings, specifications and documents set out at Appendix A.

The Works are being procured as a Traditional Construction package and as such design work has been completed ahead of the tender package issue.

The proposed development of the Firepool site requires some significant preparation of the site to remove obstacles, including demolition work, sewer diversions, ground contamination

remediation, and construction of serviced platforms and principle drainage infrastructure. The Enabling Works package seeks to undertake the site wide clearance and groundworks to facilitate future parcel development on the site.

The works are set to include:

- Demolition of the existing Auction House building and associated hardstandings

- Diversion of existing public surface water and combined sewer assets within the site

- Site clearance of above ground obstructions and remnants of previous site development

- Bulk earthworks to raise the site levels for flood protection and to provide platforms for future parcels

- Construction of new primary foul and surface water drainage infrastructure to service the site including a new outfall to the River Tone

- Delivery of a new flood relief culvert to pass overland flows through the raised site

- Diversion of existing utilities affected by the works

- Reinstatement of a combined footway/cycleway through the site

- Re-securing of the site with existing fencing and supplemental fencing

- Construction of a temporary surface to the Firepool car park after re-levelling
