Laboratories Belfast Health and Social Care Trust

II.2.4) Description of the procurement

Provision of HLA Antibody Detection & Identification Service Products to H&I Laboratory BHSCT

II.2.5) Award criteria

Price

II.2.11) Information about options

Options: No

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Award of a contract without prior publication of a call for competition in the cases listed below

- The services can be provided only by a particular economic operator for the following reason:
 - absence of competition for technical reasons

Explanation:

No other reasonable alternative exists for this procurement and this service is critical to patient care and service delivery. This procurement is both essential and critical in supporting the long-term/optimum graft survival of renal transplant patients. A tender

process that was delayed due to Covid19 commenced in September 2021 for this service, this procurement is required to cover the interim period until that process has completed. A

replacement in the short-term is not a reasonable alternative as it would require extensive and robust validation and verification work in line with laboratory accreditation standards - UKAS ISO15189 that would result in significant disruption and disproportionate technical difficulties that would significantly impact on patient safety and the Trusts ability to deliver

services.

The absence of competition is not a result of the artificial narrowing of the parameters of the procurement. The wider market will be consulted as part of the tender process that is in

progress HLA Typing & Antibody Ref: 3786726.

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes

IV.2) Administrative information

IV.2.1) Previous publication concerning this procedure
