II.2.4) Description of the procurement

HIWFRS requires a solution provider to work closely with their project team to provide the overall design, to build, test and implement a new Fleet Vehicle & Asset Management System as well as providing an on-going support service over the whole of the contract lifetime.

HIWFRS will hold some preliminary engagement sessions and the purpose of these is to assist the project team in:

- a) gaining a deeper understanding of the current market landscape, including trends, innovations, and supplier capabilities. For HIWFRS can refine our requirements and procurement approach.
- b) identifying potential risks related to procurement, such as supply chain issues, technological feasibility, or cost uncertainties, for them to be addressed before the formal tender process begins
- c) understanding the suppliers project approach, methodology, resource requirements and tools for delivering the new system.
- d) identifying suppliers that can provide a system that meets the needs of the FMC department.

II.2.14) Additional information

The supplier engagement days are set as:

29th October (14:30 to 16:30 hrs)

30th October (14:00 to 16:00 hrs)
