Description

North East and North Lincolnshire currently operates a 'Framework Agreement' for Street Lighting Term Maintenance Services.

This current agreement expires 31 October 2025 and both Authority's are seeking to establish a new Framework Agreement with a suitably qualified and experienced Supplier for " Street Lighting Term Maintenance" services and other related works.

The Supplier will be responsible for the following Asset activity within the public highway:

Street and Car Park Lighting

Festive and feature Lighting - provision, installation, removal and maintenance of Summer and Christmas Illuminations and assistance with official switch on occasions

Illuminated and non-illuminated bollards

Traffic Signs and Posts

CCTV Masts

Feeder pillars, cabling and power supply equipment

Emergency Call-Out (ECO) service, including Out of Hours and accident damage remedial works in the event of unsafe occurrences

Improvement and general works of street lighting, both planned and reactive maintenance of street lighting equipment, illuminated/electrified street furniture, including lamp columns, road signs, bollards, traffic monitoring equipment, duct/cable laying, electrical fittings, etc.

- Bulk Lamp change
- Night time scouting and reporting of defective/non lit equipment
- Lighting Central Management System (CMS)
- Testing of electrical equipment on the public highway
- Testing of structural integrity and fitness for purpose of lamp columns.
- Works may include professional services in addition to physical, construction works to support Minor and Major highways and transport schemes

These services would only be required to be provided within the geographic boundaries of North Lincolnshire and North East Lincolnshire.

The tender is divided into lots Lot 1 - North East Lincolnshire Council Lot 2 - North Lincolnshire Council .

One tenderer will be appointed for each lot. However, tenderers can bid for one or both lots.

CPV classifications, contract locations and contract dates are shown in the Scope section, because they are the same for all lots.

Framework

Maximum number of suppliers

Unlimited

Maximum percentage fee charged to suppliers

0%

Justification for framework term over 4 years

The contract requires the successful supplier for Lot 1 to have a depot within the borough of North East Lincolnshire. The depot will house their fleet, stock and provide welfare for their staff.

If the current incumbent is not successful, it would mean a new Supplier will possibly have the capital outlay and would not recover their costs over a four (4) year period.

This would be reflected within the tendered price and would not be attractive to the market.

An eight (8) year framework would allow a tenderer to spread the capital cost over the life of the framework. This would reduce the cost to the Authority and make the tender more attractive to the market.

The initial term would be for four years, however the further years would be granted based on performance.

Framework operation description

Each lot will have a sole supplier and selection process will be without competition.

Award method when using the framework

Other information

Description of risks to contract performance

Local Government Re-organisation

1.1 In December 2024 the Government issued a White Paper on Local Government Re-Organisation entitled the "English Devolution White Paper".

1.2 In March 2025 Greater Lincolnshire submitted their suggested re-organisation plan to the Government and are awaiting a response.

1.3 Final proposals will be submitted in November 2025 and implementation of the changes is expected by Government to be by 2028 at the earliest.

1.4 Whilst the expected impact of most changes to Local Government will be settled at Government Level (Change in Law) please be aware that it may be government policy or expedient that any affected party will be recommended to agree bi-lateral or multi-lateral changes to their existing contractual arrangements.

1.5 There is a possibility that due to local government reorganisation this contract will need to be novated to another public body carrying out the same functions as the Client's.
