II.2.4) Description of the procurement

Implementation management. This work package will conduct assessments of policy options to understand, in outline terms, how these could be delivered, particularly with respect to an underlying IT solution. This work will help develop the Review's

recommendations by identifying solutions that are deliverable and minimise implementation costs. Suppliers should have experience in designing top-level R&I systems in complex organisations, which anticipate implementation challenges and enable a reward offer to be delivered efficiently and effectively. Suppliers should also have experience of IT implementation challenges and identifying back-office efficiencies.
