#### **II.1.2) Main CPV code**

- 33950000 - Clinical forensics equipment and supplies

#### **II.1.3) Type of contract**

Supplies

#### **II.1.4) Short description**

Forensic Science Northern Ireland (FSNI) is seeking to establish a Contract for the supply, and delivery of DNA Extraction and Profiling Kits that are approved by the Forensic Information Database Service (FINDS) Strategy Board for upload to the UK National DNA Database. The Contract will remain in place for an initial period of 7 years, with two options to extend (for any period up to and including 3 years then 2 years). If tendering for Lot 1 (Casework Extraction Kits), two kits must be provided (kits A and B). If tendering for Lots 2 and 3 (profiling kits), one kit can be proposed up to a maximum of 3 kits per Lot. This competition is being managed in accordance with the Public Contracts Regulations 2015 (as amended) and, due to the urgency and nature of the kits, will be carried out using the Accelerated Open procedure.

Text

Construction and Procurement Delivery (CPD), on behalf of Forensic Science Northern Ireland (FSNI), have decided to discontinue the Open Procedure in respect of “Lot 1 Casework Extraction Kits” and switch to the Negotiated procedure in accordance with Regulation 32(2)(a) of the Public Contracts Regulations 2015 (as amended). This is due to an insufficient number of suitable responses for Lot 1 to progress the testing phase of the tender competition. The extensive testing processes and award criteria have been designed to allow FSNI to identify the best performing extraction kit and compatible extraction kit. It is imperative that there are a sufficient number of suitable tenders from Lot 1 progressing to the testing stage to allow FSNI to carry out a robust exercise to determine the best performing kits for casework extraction and secure value for money.
