Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Kirklees Integrated Substance Misuse Service

Reference number

KMCPH-022

II.1.2) Main CPV code

- 85000000 - Health and social work services

II.1.3) Type of contract

Services

II.1.4) Short description

Tenders are invited by the Council from Providers with relevant experience and ability to demonstrate sufficient capacity for the provision of Kirklees Integrated Substance Misuse Services (the “Services”). The Council is looking to procure a service which encompasses the full range of substance misuse interventions including, but not limited to, early intervention approaches, harm reduction, structured care and recovery supports. The service will be part of a wider system that the Council wants to refocus to a whole system prevention and recovery model.

Tenders are invited by the Council from Providers with relevant experience and ability to demonstrate sufficient capacity for the provision of Kirklees Integrated Substance Misuse Services (the “Services”). The Council is looking to procure a service which encompasses the full

range of substance misuse interventions including, but not limited to, early intervention approaches, harm reduction, structured care and recovery supports. The service will be part of a wider system that the Council wants to refocus to a whole system prevention and recovery model. It is the Councils preference that this service will be delivered by a formal partnership of providers, which includes Kirklees third sector organisations, who have the skills, experience and relationships (to be developed as necessary) required to deliver the specified outcomes. It is further anticipated that during the life of the contract the provider(s), in partnership with the commissioner, will develop an consortia model with key partners who are involved in the delivery of relevant pathways that contribute to the achievement of the specified outcomes. The anticipated commencement date for the Contract is 1st October 2022 and the anticipated expiry date for the Contract is 30th September 2027 with the option to extend for up to a further sixty

(60) months. Further details regarding the Services required are set out in the Specification and in the Conditions of Contract.

Further funding has been made available for this tender through Her Majesty's Prison and Probation Service Yorkshire and the Humber to enhance services specifically for those on a Probation caseload, those on a Rehabilitation Activity Requirement (RAR) either Drug and/or Alcohol, or those on licence or post sentence supervision. These additional services shall be identified as "Dependency and Recovery Services" for the purpose of the service specification. The Service shall provide the Dependency and Recovery Services to respond to each Service user's complexity of need as identified by the Responsible Officer (Probation Offender Manager) in the referral and in a way which reflects any risk of serious harm issues included within the referral. The information contained within the referral should be reviewed by both the Service and the Responsible Officer throughout the duration of each Service user's Intervention.

- Service User achieves abstinence or controlled/ non-dependent or non-problematic substance misuse.
- Service User increases their understanding of addictive behaviours and triggers and option to reduce dependency.
- Service User improves their physical health and mental resilience.
- Service User enhances their skills to manage risky situations which may pose a trigger or relapse.
- Service User enhances their belief in ability to manage/ desist from addiction(s).
- Service User increases understanding of addictive behaviours and triggers and options to reduce dependency.
- Service User improves physical health and mental resilience.
- Service User establishes Dependency Pathways to manage a range of addictive

behaviours, including supporting access into other treatment providers and detox programmes.

- Service User has continuity of care from prison into the community where there is no other available resource or commissioned service.
- Service User has a minimised risk of overdose following release from prison.

The individualised combination of outcomes specific to each Service User shall become the agreed outcomes for each service user which shall be set out in the "Personal Wellbeing Plan". Where applicable, the Service must support a Service user's transition from Young Offenders Institute ("YOI") or an adult male prison back into the community and focus on the place where they will reside (not the prison they are released from).

Services shall be delivered in a way which reflects the differing complexity levels of service users which occur within the probation caseload:-

- Low complexity - Service user who is highly motivated and have had sustained period of abstinence. Service user has successfully engaged in a period of treatment but requires support to sustain recovery.
- Medium complexity - Services user who has had lapses/crises that may lead to relapse and/or is at a transition point, e.g. from prison into community. Service user has a moderate level of motivation but requires a high level of support.
- High complexity – Service user who is sentenced to Community Sentence where there is a dual diagnosis and substance misuse treatment. Service user does not meet the threshold for secondary provision and/or are deemed unsuitable following assessment for treatment as part of a Community Sentence Treatment Requirement. However, Service user has identifiable substance misuse, alcohol misuse, prescription, gambling or other dependencies linked to re-offending. Service user has a history of poor engagement with treatment services and requires a high level of motivation and support to engage with treatment.

Funding is time limited to 18 months initially with a potential to be extended, dependent on external funding sources.

The amounts should be added onto the maximum budget:

01 October 2022 – 31 March 2023 - £52,178.50

01 April 2023 – 31 March 2024 - £154,253
