- 71630000 - Technical inspection and testing services
- 71631100 - Machinery-inspection services

II.2.3) Place of performance

NUTS codes

- UKD - North West (England)

II.2.4) Description of the procurement

Gearboxes are vital to United Utilities and are process critical in many Water and Wastewater treatment activities. The Scope of Work shall include for all works predominantly associated with the repair of gearboxes that are used on Company sites and throughout its Operational Area. The gearboxes shall include, but shall not be restricted to, geared motor type gearboxes, single and double reduction worm and wheel type gearboxes, single / double / triple reduction helical geared gearboxes and single / double / triple reduction bevel geared gearboxes. The Contractor shall be expected to provide these services on a planned and reactive basis. The Contractor will be required to ensure each repair/ installation complies with the relevant British Standard Requirements

for Mechanical/Electrical Installations and UU Asset Standards. It's envisaged that the majority of activities under this scope and specification shall be carried out Monday to Friday between the hours of 08:00 & 17:00 however some emergency work outside of these hours may be required on an adhoc basis and applicants must be able to provide out of hours repair services, it is imperative that the asset is returned to service as quickly as possible. These services shall be utilised on United Utilities Water and Wastewater Treatment sites including Bioresource and Energy Services and Network pumping stations.

II.2.5) Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6) Estimated value
