Engagement

Engagement deadline

27 June 2025

Engagement process description

UKHSA is seeking to appoint a provider for the provision of supply, cutting and encoding of PADC plastic. The plastic is required for the Personal Dosimetry Service based at Chilton. UK Health Security Agency (UKHSA) provides personal dosimetry services (PDS) which measure the amount of radiation exposure received by workers. The service is provided to users of ionising radiation in a variety of sectors, e.g. medical and nuclear, which measures workers' radiation doses by means of dosimeters or "badges". We are carrying out preliminary market engagement for this project as part of the pre-tender market engagement process. If you would be interested in submitting a tender for this requirement, please could you email science.tendering@ukhsa.gov.uk with the subject: PADC Plastic to request copies of the preliminary market engagement documents. The deadline for responses is 27th June 2025 at 5pm.
