The service will provide trauma informed training for all GP Practice staff to increase clinical enquiry into domestic abuse, sexual abuse and sexual violence, and it will provide support for people of all genders over the age of 16 affected by domestic abuse and/or sexual abuse and violence where the risk of homicide is not high. The 5-year contract, will also include development of interventions for people of all genders over the age of 16 who are concerned about their own potentially abusive behaviour in relationships (domestic abuse) and for children and young people affected by domestic abuse.

The events will offer insight into our direction of travel and will provide you an opportunity to shape and inform our thinking and where applicable, to form potential partnerships with other organisations within the market.

The event will be supplemented with push notifications of key documents by way of background stories to illustrate the specifics of delivering services within Devon Primary Care.

We will run a FAQ message board where clarification will be uploaded to help inform your thinking as you progress and assist in between the event series. We will share patient stories, user experience and draft specification documents through our secure tendering portal (In-tend).

Throughout the events we will be testing your thinking as the market through online feedback (Mentimeter and Microsoft Forms).

To enhance the engagement series, we welcome your continual feedback. A question pack will be released ahead of the events to those that have expressed an interest.

A more detailed schedule will be provided ahead of the event.
