Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Academic research: Review of children & adolescent gender identity services

II.1.2) Main CPV code

- 85100000 - Health services

II.1.3) Type of contract

Services

II.2) Description

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

II.2.4) Description of the procurement at the time of conclusion of the contract:

NHS England and Improvement recently announced an independent review into children and adolescent gender identity development services (for under 17s) which is commissioned by NHS England's specialised commissioning directorate - (ToR of review

-

https://www.england.nhs.uk/wp-content/uploads/2020/09/GIDS_independent_review_ToR.pdf).

This review requires extensive, expert led research and engagement in order to successfully make recommendations to inform the future shape of gender identity development services for children and young people.

A key principle of the review is that it must be participative, evidence based and incorporate lived experience in order to formulate conclusions and recommendations that will command the confidence of stakeholders.

The research streams outlined in this specification have been designed to achieve these ends. Specifically, the outputs required are to achieve the best available collation of published evidence, and qualitative and quantitative research that can feasibly be produced within the timeframe of the review.

Recognising that the published evidence is unlikely to be of high enough quality to form the sole basis for the recommendations of the review, a process is needed for synthesising the published evidence and research outputs of the academic team(s) with stakeholder submissions and expert opinion. This will involve a consensus development approach, using Delphi or other appropriate tools, and we would anticipate that the research team(s) would be integral to this important stage of the review.

The review will report to NHS England's Commissioning Committee and a project assurance group, Chaired by Dr Cass has been set up to oversee the work. The project assurance group will assist the Chair in ensuring the process and conduct of review is appropriate, fit for purpose and that decisions are transparent. The assurance group does not contain subject matter experts or service users and their role is strictly the governance of the review process, not to inform outcome. The group includes ethics, legal, and research expertise, plus experience in CYP advocacy, and CYP participation.

II.2.7) Duration of the contract, framework agreement, dynamic purchasing system or concession

Start date

8 September 2021

End date

8 January 2024

II.2.13) Information about European Union Funds

NUTS code

- UK - United Kingdom

National registration number

RC000679

Internet address

<http://www.york.ac.uk>

The contractor/concessionaire is an SME

No

VII.2) Information about modifications

VII.2.1) Description of the modifications

Nature and extent of the modifications (with indication of possible earlier changes to the contract):

Contract variation of value: £329,602

Zero-cost contract extensions from the original contract end date to 08/01/2024

VII.2.2) Reasons for modification

Need for modification brought about by circumstances which a diligent contracting authority/entity could not foresee.

Description of the circumstances which rendered the modification necessary and explanation of the unforeseen nature of these circumstances:

Both the contract variation of £329,602 and contract extensions were due to the Statutory Instrument necessary to undertake part of the work.

VII.2.3) Increase in price

Updated total contract value before the modifications (taking into account possible earlier contract modifications, price adaptations and average inflation)

Value excluding VAT: £897,512

Total contract value after the modifications

Value excluding VAT: £1,227,114
