Opportunity

Ancillary, Contributing Area and Flow Surveys

ANGLIAN WATER SERVICES LIMITED

F05: Contract notice – utilities

Notice reference: 2021/S 000-032514

Published: 30 December 2021, 5:47pm

Section I: Contracting entity

I.1) Name and addresses

ANGLIAN WATER SERVICES LIMITED

Lancaster House Lancaster Way, Ermine Business Park

HUNTINGDON

PE296XU

Contact

Siobhan Seymour

Email

sseymour@anglianwater.co.uk

Telephone

+44 7802856857

Country

United Kingdom

NUTS code

UKH12 - Cambridgeshire CC

Internet address(es)

Main address

<https://www.angliawater.co.uk/>

I.3) Communication

The procurement documents are available for unrestricted and full direct access, free of charge, at

<https://esourcing.scanmarket.com/publicevents/list?comId=3004&ccsum=57aa08f02740e2c172f509ae0fa4807a&type=all>

Additional information can be obtained from the above-mentioned address

Tenders or requests to participate must be submitted electronically via

<https://esourcing.scanmarket.com/publicevents/list?comId=3004&ccsum=57aa08f02740e2c172f509ae0fa4807a&type=all>

I.6) Main activity

Water

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Ancillary, Contributing Area and Flow Surveys

Reference number

PA 2021 0296

II.1.2) Main CPV code

- 90491000 - Sewer survey services

II.1.3) Type of contract

Services

II.1.4) Short description

Anglian Water require the following scope of services across the region.

Lot A Ancillary (Manhole and Pumping Station and other surveys as required)

Lot B Contributing Area Surveys (CAS)

Lot C Flow Surveys

The intention is to award between two and four suppliers for each surveying activity/ lot.

The proposed contract term is a three year initial fixed term, with the potential to extend for a further five years.

II.1.5) Estimated total value

Value excluding VAT: £1,249,600

II.1.6) Information about lots

This contract is divided into lots: Yes

Tenders may be submitted for all lots

II.2) Description

II.2.1) Title

Ancillary (Manhole and Pumping Station and other surveys as required)

Lot No

II.2.2) Additional CPV code(s)

- 90491000 - Sewer survey services

II.2.3) Place of performance

NUTS codes

- UKH - East of England

Main site or place of performance

Throughout the entire Anglian Water Region.

II.2.4) Description of the procurement

Lot A Ancillary (Manhole and Pumping Station and other surveys as required)

Ancillary surveys consist of measuring specific asset parameters such as depth, diameter, pump rate etc. They are typically required when drainage system records are poor or missing. The information is used to update the hydraulic models which are then used for various projects - detailed solution design, investigations, root cause analysis and so on.

* Other surveys on occasion are requested. For example, a balancing tank survey or a storage channel survey. These surveys are included in the scope of a Manhole or Pumping Station Surveys, but not always requested or needed and are referenced in the specification)

II.2.5) Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6) Estimated value

Value excluding VAT: £937,200

II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

Duration in months

This contract is subject to renewal

Yes

Description of renewals

The proposed contract term is a three year initial fixed term, with the potential to extend for a further five years.

II.2.10) Information about variants

Variants will be accepted: No

II.2.11) Information about options

Options: Yes

Description of options

There is an initial three year term and the contract with the potential to extend for a further five years, or variation on five years, with a no longer than eight year term.

II.2) Description

II.2.1) Title

Contributing Area Surveys (CAS) - Lot B

Lot No

2

II.2.2) Additional CPV code(s)

- 90491000 - Sewer survey services

II.2.3) Place of performance

NUTS codes

- UKH - East of England

Main site or place of performance

The scope of this Lot will be required across the entire Anglian Water region.

II.2.4) Description of the procurement

Contributing Area Surveys are undertaken to understand how networks perform during periods of rainfall and to produce calibrated hydraulic models. They consist of visual observation of where the roof drainage is connected and where necessary undertaking a sound test to establish connectivity. When rainwater enters the foul sewer network it can cause excessive flows in pumping stations and treatment works. This may cause polluted sewage to overflow into streams or possibly within a residential property. The first step in reducing the storm flows within a catchment is to identify where storm water sewers are separate from foul, and those areas which are combined into the one system.

The data provided from the survey can enable decisions on making changes to the network with the outcome of reducing stress and possible incidents of sewage overflow /flooding.

II.2.5) Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6) Estimated value

Value excluding VAT: £312,400

II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

Duration in months

96

This contract is subject to renewal

Yes

Description of renewals

The proposed contract term is a three year initial fixed term, with the potential to extend for a further five years.

II.2.10) Information about variants

Variants will be accepted: No

II.2.11) Information about options

Options: Yes

Description of options

There is an initial three year term and the contract with the potential to extend for a further five years, or variation on five years, with a no longer than eight year term.

II.2) Description

II.2.1) Title

Flow Surveys

Lot No

3

II.2.2) Additional CPV code(s)

- 90491000 - Sewer survey services

II.2.3) Place of performance

NUTS codes

- UKH - East of England

Main site or place of performance

Across the entire Anglian Water region.

II.2.4) Description of the procurement

Flow surveys are needed in order to record actual flow data at critical locations of the sewer system. They consist of installing sensors for measuring and recording the flow depth and velocity in sewers. The information is then used to calibrate and verify the hydraulic models so that the simulated performance matches the observed flows. The verified models support decision making about improvements to the network, efficiencies and cost saving

II.2.5) Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6) Estimated value

Value excluding VAT: £312,400

II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

Duration in months

96

This contract is subject to renewal

Yes

Description of renewals

The proposed contract term is a three year initial fixed term, with the potential to extend for a further five years.

II.2.10) Information about variants

Variants will be accepted: No

II.2.11) Information about options

Options: Yes

Description of options

There is an initial three year term and the contract with the potential to extend for a further five years, or variation on five years, with a no longer than eight year term.

Section III. Legal, economic, financial and technical information

III.1) Conditions for participation

III.1.1) Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions

For further details see tender documentation.

III.1.2) Economic and financial standing

List and brief description of selection criteria

For further details see tender documentation.

III.1.3) Technical and professional ability

List and brief description of selection criteria

For further details see tender documentation.

III.1.4) Objective rules and criteria for participation

List and brief description of rules and criteria

For further details see tender documentation.

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Negotiated procedure with prior call for competition

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes

IV.2) Administrative information

IV.2.2) Time limit for receipt of tenders or requests to participate

Date

26 January 2022

Local time

11:00pm

IV.2.4) Languages in which tenders or requests to participate may be submitted

English

Section VI. Complementary information

VI.1) Information about recurrence

This is a recurrent procurement: No

VI.4) Procedures for review

VI.4.1) Review body
