The contract is awarded by a central purchasing body

I.3) Communication

Additional information can be obtained from the above-mentioned address

I.4) Type of the contracting authority

Ministry or any other national or federal authority

I.5) Main activity

General public services

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Emissions and Sustainability Reporting Software (“ESRS”)

Reference number

prj_1127

II.1.2) Main CPV code

- 48611000 - Database software package

II.1.3) Type of contract

Supplies

II.1.4) Short description

The Department for Business, Energy & Industrial Strategy (BEIS) and the Coal Authority (CA) are seeking to procure an “EMISSIONS AND SUSTAINABILITY REPORTING SOFTWARE (ESRS)” platform.

The successful Supplier will work with BEIS and CA to deliver a viable ESRS platform, capable of ingesting and converting data for the purposes of data visualisation, insights and sustainability reporting. It is expected that multiple forms of data translation will be available, from usage of Application Programming Interfaces, Secure File Transfers and direct data entry into the platform.

Key data sources include but are not limited to:

- Greening Government Commitment (GGC) data, spanning gas, electricity, water, travel and waste.
- Spend data, with the Supplier being well-versed in converting data to suitable 'Environmentally Extended Input-Output' industry-average analysis, building on Greenhouse Gas Protocol standards.

An optional advisory support package linked to the provision of data interpretation, insight and sustainability expertise also forms part of the requirement. It is critical the successful Supplier is capable regarding environmental reporting and has access to sustainability expertise.

The need for this project is 'solution heavy, advisory light', with the establishment of a 'one-stop shop' to enable both BEIS and CA to identify material sustainability interventions and understand emissions hotspots. We are seeking to deploy an independent yet interoperable data platform across BEIS and CA organisational boundaries. Maturing our data is an important feature of the requirement and we expect the in-house ability to introduce new datasets, such as through overwrite functionality of industry average data.

To summarise, the broad outcomes sought are to:

- Track realised performance against targets and various baselines
- Identify leverage points and hotspots requiring targeted action
- Integrate our reporting across all areas
- Achieve an impact-based decision-making lens through effective reporting insights

Open Procedure Find a Tender Service (FTS) call to competition.

We will be conducting Early Market Engagement (EME) with all suppliers who express interest by 12:00 noon, 25 November 2022.

Suppliers must express an interest via email to Cyril Nosa (cyril.nosa @beis.gov.uk) and Jake Smith (jake.smith@beis.gov.uk) by 12:00 25th November 2022 to book your place.

Suppliers whom express interest by this stated date will be contacted and invited to the EME event(s).

Suppliers will receive an additional document, the "Expression of Interest" (EOI) form which contains validation questions. We encourage interested suppliers to reflect on these questions and respond before the event.

The engagement event will start week commencing 28 November 2022. This will also provide opportunity for 1:1 discussion.

II.1.5) Estimated total value

Value excluding VAT: £200,000

II.1.6) Information about lots

This contract is divided into lots: Yes

II.2) Description

II.2.1) Title

Emissions and Sustainability Reporting Software ("ESRS")

Lot No

One

II.2.2) Additional CPV code(s)

- 48461000 - Analytical or scientific software package

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

Main site or place of performance

United Kingdom

II.2.4) Description of the procurement

Open Procedure Find a Tender Service (FTS) call to competition.

We will be conducting Early Market Engagement (EME) with all suppliers who express interest by 12:00 noon, 25 November 2022.

Suppliers whom express interest by this stated date will be contacted and invited to the EME event(s).

We encourage interested suppliers to reflect on the Expression of Interest (EOI) validation questions contained within the attachment.

The engagement event will start week commencing 28 November 2022. This will also provide opportunity for 1:1 discussion.

II.2.14) Additional information

72221000: Business analysis consultancy services

72313000: Data capture services

72310000: Data-processing services

72314000: Data collection and collation services

80540000: Environmental training services

90711300: Environmental indicators analysis other than for construction

II.3) Estimated date of publication of contract notice

1 February 2023

Section IV. Procedure

IV.1) Description

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes

Section VI. Complementary information

VI.3) Additional information

PLEASE NOTE:

Bidders who Express Interests by the 25th November, will be issued with the Express of Interest Validation Form (with questions) and will be issued with Early Engagement Meeting Dates, which commences on the week commencing 28th November 2022.

To Note: we request that Interested Suppliers complete the Validation Questionnaire prior to commencement of the Early Engagement meetings.

INTERESTED SUPPLIERS SHOULD NOTE ADDITIONAL CPV CODES BELOW:

48461000: Analytical or scientific software package

72263000: Software implementation services

72316000: Data analysis services

72221000: Business analysis consultancy services

72313000: Data capture services

72310000: Data-processing services

72314000: Data collection and collation services

80540000: Environmental training services

90711300: Environmental indicators analysis other than for construction
