Tender

FW Services - Operational Technology Framework - Extended Deadline to 20/06

SCOTTISH HYDRO ELECTRIC TRANSMISSION PLC

UK4: Tender notice - Procurement Act 2023 - [view information about notice types](#)

Notice identifier: 2025/S 000-032552

Procurement identifier (OCID): ocds-h6vhtk-05492c

Published 16 June 2025, 12:12pm

Scope

Description

Scottish Hydro Electric Transmission Plc (SHET) trading as SSEN Transmission has identified a requirement to establish an OT specific Framework of suppliers to maintain a dedicated pool of suppliers to support the successful delivery of our T3 programme. Details of the programme can be found at <https://www.ssen-transmission.co.uk/globalassets/documents/riio-t3-documents/ssent-riio-t3-business-plan.pdf>

NB. Original notice published is Notice identifier: 2025/S 000-020450 & updated on notice identifier 2025/S 000-031698. This notice is to reflect change to dates, including change of deadline for PQQ responses from 16.06.25 @12:00 to 20.06.25 at 12:00

Commercial tool

Establishes an open framework

A series of frameworks with substantially the same terms. Awarded suppliers are carried over and new suppliers can bid.

Total value (estimated)

- £240,000,000 including VAT

Above the relevant threshold

Contract dates (estimated)

- 1 February 2026 to 31 January 2034
- 8 years

Options

The right to additional purchases while the contract is valid.

Framework - Purchase via call off contracts

Main procurement category

Services

CPV classifications

- 72000000 - IT services: consulting, software development, Internet and support
-

Lot 1. Substation OT Prof Services (security assurance in substations, firewalls, common platforms)

Description

Design and build of security solutions to be deployed into substation environments, including the infrastructure and services for backup, monitoring, endpoint protection and firewalls.

- Design and build of physical security solutions for substation environments, including automated access control systems (AACS), CCTV, and other access control and monitoring solutions such as key safes and door contact sensors.
- Procure and supply the hardware for the security solutions. In most cases this will be free issued by SSEN-T.
- Provide ongoing 2nd line maintenance and support of the service / solution.
- Consultancy engagements focused on future development or addressing emerging challenges, specific to Lot 1.

Lot value (estimated)

- £240,000,000 including VAT

Framework lot values may be shared with other lots

Same for all lots
