#### **II.2.4) Description of the procurement**

This is a Voluntary Ex Ante Transparency (VEAT) Notice. The Crown Office and Procurator Fiscal Service (COPFS) will be entering into a contract with Applications DBA Ltd to supply Oracle Database Administrator Services for its business-critical Database Environment; for the planning, design and migration of our Oracle database systems to support the remaining transition of COPFS' datacentres to offsite locations; the planning, design and development of our next generation Case Management System; and establishment of enhanced IT and business resiliency systems.

This requires in-depth knowledge of COPFS current environment and infrastructure as well as extensive experience and up to date qualifications and skills in Oracle DBA to be able to provide knowledge transfer, support the transition of new team members and produce detailed systems documentation for COPFS case management systems, activities requiring bespoke and detailed technical understanding of COPFS FOS, PROMIS and other case management systems This is a business-critical service and for technical reasons competition is absent.

#### **II.2.11) Information about options**

Options: No

#### **II.2.13) Information about European Union Funds**

The procurement is related to a project and/or programme financed by European Union funds: No

## **Section IV. Procedure**

### **IV.1) Description**

#### **IV.1.1) Type of procedure**

Award of a contract without prior publication of a call for competition in the cases listed below

- The procurement falls outside the scope of application of the regulations

Explanation:

Under the Public Contracts (Scotland) Regulations 2015 33(b)(ii) competition is absent for technical reasons. COPFS has encountered issues attracting and recruiting experienced staff for its Database Team. This has dramatically increased COPFS reliance on 3rd party services as the team are not fully resourced and are still acquiring the required knowledge and skills to migrate the current Database Environment and Infrastructure and to support the legacy systems. It is crucial to ensure continuity and successful management of the database environment, that the 3rd party service is supplied by an organisation that has the required in-depth knowledge of COPFS environment and infrastructure, including FOS and PROMIS, as well as extensive experience and up to date qualifications and skills in Oracle DBA.
