II.1.4) Short description

Cardiff University is seeking to procure an IT Asset Management (ITAM) toolset to enable effective IT asset monitoring and management. This will ensure that we are making best use of our assets throughout their lifecycle. The information that the toolset will return will also be used as an information source for securing assets. It is anticipated that there will be a financial and environmental sustainability benefit through re-use and re-deployment of IT assets, achieved via an ITAM toolset that enables lifecycle management of hardware and software assets. The bidder shall provide a toolset that is delivered as Software as a Service (SaaS).
