II.1.4) Short description

Ulster Wildlife is seeking to procure:

A portable CH4 and CO2 gas analyser and compatible flux chamber. Ulster Wildlife would be using these in the field to precisely measure greenhouse gas emission of peatland sites pre and post restoration, in particular CH4 and CO2. Using a portable machine will be necessary as we are working in remote areas and are planning to measure emissions on several points on each site, before and after restoration. Moreover, as we are interested in flux measurements as well, we are looking for a portable, self-powered, compatible flux chamber.
