Services

II.1.4) Short description

HMRC Chief Digital and Information Office (CDIO) is the internal department tasked with the provision of critical IT services, which enable billions of pounds of annual tax revenue, customer interfaces, and other UK tax operational systems.

The Enterprise Security Programme has secured investment for a three-year period which started April 2022. The investment for 2023/24 will contribute to HMRCs objectives by delivering enterprise-wide security improvements and support strategic planning and delivery activities (transformational, remedatory and enabling).

The Cyber Remediation and Cyber Operations Projects are 2 of 5 projects within the Enterprise Security Programme. Their objective is to deliver risk mitigation by remediating known vulnerabilities across our systems and services through the application of patches, configuration changes and encryption, additional access & session monitoring controls as well as strengthening networks/vulnerability assessment security controls/assurance and enhance HMRCs capability to mitigate, detect and respond to Cyber Security threats.
