A duplicate and fraudulent payment auditing COTS software system is in scope of this contract.

HCC is looking to contract for a period of 3 years with optional extensions of 4 x 12 month periods up to a total contract term of 7 years.

The Authority requires a COTS solution which has a product lifecycle/road map that supports this contract term and must allow HCC the option to take up additional features/improvements during the contract term.

Support and maintenance of the system is in scope of this contract.

HCC wishes to procure 15 licences initially, but there needs to be scope to increase the number of licences to at least 20 if required during the contract term.

The current number of transactions is circa 950,000 per year, but the system must have the ability to increase to 1.5M transactions per year and also have the ability to cater for double the current volume of transactions should HCC require this during the contract term.

The system must have the scope to process double the number of supplier records should HCC require this during the contract term.

The system and the HCC data held within it must be hosted in the UK or the EEA and must not be transferred or processed outside the UK or EEA.
