#### II.2.4) Description of the procurement

The initial aim of the service is for an experienced behaviour change and children's weight

management team to assess and support children and young people, and their families, with

behaviour changes to achieve a healthier weight. The service will ultimately form part of an

integrated weight management offer, which will comprise a range of activities and support including, for example, cooking skills, parenting support, peer support etc.

Our intention is to work in partnership with communities, adopting an iterative learning process that enables the gradual transfer of resources allowing them to play an incremental

role in the provision of weight management support to their residents. We envisage that significant elements of this service will be developed over time, and we will therefore be writing a developmental service specification.

This contract is for an initial period of 4 years and 11 months with a budget of up to £2,250,000. There is also an option to extend for a further 3 years after the initial period

We expect potential contractors to meet a number of minimum standards; these are detailed
