II.1.4) Short description

On behalf of Gold Hill HA, B2G.services are tendering a national framework for use by any UK contracting authority wishing to procure a flat roofing 'full system' installation, repair or upgrade and all associated works supplies and services in relation to any asset class of property, anywhere in the UK.

This framework is aimed at flat roofing system suppliers and manufacturers, who will be expected to oversee the design, survey and installation of full systems by their approved system contractors, checking full installations to ensure material warranty and guarantee requirements are met prior to handover. Framework suppliers must therefore be able to offer a comprehensive all-in-one service to co-ordinate all of the above.

To optimise efficiency and compliance in both project procurement and project delivery, framework suppliers may also assign projects to their approved system contractors registered on the B2G DPS, who then contract with the authority under the DPS and deliver the project/s on behalf of the framework supplier. It is therefore anticipated that approved system contractors will register for the B2G DPS being launched concurrently.

The shortened term will enable all parties to better withstand market and supply chain volatility, with pricing remaining current, competitive, durable and viable. The automatic renewal will ensure optimum efficiency.

To ensure the framework remains open, fair and competitive at all times, at each renewal date additional Suppliers may also be appointed, subject to submitting a Bid and being evaluated and awarded by B2G in accordance with the same criteria and terms.
