- 30163100 - Agency fuel cards

II.2.3) Place of performance

NUTS codes

- UKK11 - Bristol, City of

II.2.4) Description of the procurement

The Authority has a requirement for a purchasing method to enable the purchase of fuel from commercial fuel stations in Europe. The Supplier is required to provide fuel cards that permit the purchase of only the following products:

- a. DIESO MT. DIESO MT is to be supplied to EN 590 latest issue or equivalent national specification
- b. ULGAS. ULGAS is to be supplied to EN 228 latest issue or equivalent national specification.
- c. NOx reduction agent. NOx reduction agent is to be supplied to ISO 22241 latest issue.
- d. Antifreeze. Additive for coolant fluid to improve cold weather performance
- e. Screen wash additive. Product to improve resistance to freezing for windscreen washer liquid
- f. Lubricants and other engine fluids. Engine oil and power steering fluid in quantities suitable for top up only.
- g. Electric Vehicle Charging. The next GSO vehicle fleet due 2026/2027 will be either PHEV (Petrol Hybrid Electric Vehicle) or EV (Fully Electric) to meet the MoD target of Net Zero by 2030. The fuel cards need to have the ability to pay for EV charging at German charging points.

Additionally, there is also a requirement for a Management Service in which the Supplier can provide responses to Authority requests of the following natures;

- a. The issuing, replacement and renewal of cards.

- b. Enabling and disabling cards.
- c. UIN and address amendments.
- d. Invoicing queries

A real-time Management Information system is also required to allow the Authority to perform the following tasks:

- a. Electronically (via an internet portal) allow the Authority to add a Unit Identity Number (UIN) to an on-line database to link an authorised Unit against the serial number. This would allow the Authority to accurately identify users and subsequently raise bills for fuel purchased.
- b. Provide an electronic facility that will allow the fuel card to be activated when issued to users and deactivated when withdrawn.
- c. Allow the Authority to set the limit in Euros, or the limit of the number of transactions per day (eg for when groups of vehicles are being refilled when in a military convoy), whilst remaining within the accepted and standard limits of the Supplier.
- d. Allow the Authority to set the PIN for the cards to purchase fuel.
- e. Allow the Authority to enter free-text (at least 500 characters) that would be linked to each authorised Unit in order to record the Unit point of contact details and any other relevant information.
- f. Allow the Authority to electronically terminate the ability to purchase fuel, should it be necessary (eg if a card is lost or stolen).
- g. Allow the Authority to store transaction records for up to 5 years to meet MOD financial requirements.

II.3) Estimated date of publication of contract notice

31 January 2023

Section IV. Procedure

IV.1) Description

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: No

Section VI. Complementary information

VI.3) Additional information
