Water

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Request for Information (RfI) - Supply, installation and maintenance of ozone equipment and associated spares

II.1.2) Main CPV code

- 42981000 - Ozone generators

II.1.3) Type of contract

Supplies

II.1.4) Short description

This PIN is to notify suppliers that NI Water is seeking to engage with the market regarding the supply, installation and maintenance of ozone equipment and associated spares.

NIW have identified several assets that are nearing end of life and we would be interested in speaking with suppliers who have experience of the supply, installation and maintenance of ozone generators who can meet (or similar to) the below specification;

ASSET 1;

Water Flow 192MLD (8,000m³/h)

Pre-Ozone Dose 1 to 2.0 mg/l

Post Ozone Dose 1 to 2.5mg/l

i.e. maximum total dose = 4.5mg/l x 8,000 m³/h = 36,000gO₃/h

ASSET 2;

Water Flow 160MLD (4,583m³/h)

Pre-Ozone Dose 1 to 2.0 mg/l

Post Ozone Dose 1 to 2.0mg/l

i.e. maximum total dose = 4.0mg/l x 6,667 m3/h = 26,668gO3/h

Please note that these parameters are as per the current specifications however the final specification for the replacement assets is still being reviewed and is subject to change.

We are holding individual supplier information sessions on Friday 17th November 2023.

If you would be interested in attending a session, please confirm by emailing Heather Kyle, heather.kyle@niwater.com.

In your response, please confirm the name of the representative(s) attending, job title and their email address. If you could also provide some information on your company background/experience.

Please note that responding to this PIN or attending a supplier information session is not a prerequisite for responding to a subsequent tender.

Please confirm your interest in this by COP Wednesday 15th November 2023.
