Supplies

II.1.4) Short description

1. This requirement is for the provision of 10 Back-up Atmosphere Monitors (BAMS), spares required to support each unit and the capability to purchase additional BAMS units and associated spares if required, in line with the Authority's requirements detailed in the SOSR. The units shall be a mitigation to support the existing embedded atmosphere monitoring solution.

2. The purchase of the 10 BAMS shall be delivered within a maximum duration of 12 months. All BAMS units will be subjected to Testing and Evaluation in accordance with the Authority's Change Implementation and Assurance Process (CIAP) for major safety modifications in accordance with submarine design authority policy, to ensure a fully accredited system is provided.

3. This requirement is to include:

a. the purchase of 10 BAMS units.

b. the purchase of all spares (component parts) required to support each unit, whether used for carry-on board spares (COB) or stock items, inclusive of a mechanism to replenish any spares throughout the life of the Contract, ensuring spares shelf life is not compromised.

c. the capability to purchase additional units and spares as and when required by the Authority during the 3-year duration of the Contract.
