Description

To enable the decarbonisation of homes we have a critical need to track public attitudes with as

many sources of insight as possible. We gather insight from the Public Attitudes Tracker on

attitudes towards heat pumps, but this is only yearly. Comms also gather insight through focus

groups but can only do this sporadically as doing so is expensive.

The Home Electrification Tracker Survey is a public attitudes tracking dashboard developed by

Electrify Research. The dashboard uses a quarterly survey of owner-occupiers in the UK, USA,

Germany and France with sample sizes of around 1,000 in each country per wave. The questions

in the survey track attitudes towards Net Zero, EVs, heat pumps, solar PV, batteries, perceived

benefits and drawbacks of these technologies and common misconceptions. There is a lot of

useful information across technologies in here with a level of detail that, following investigation, we

do not have in our existing sources.

By procuring this research we will be able to complement our existing insight sources with more

granular detail that will give us a more well rounded view of public opinion and ensure we can

track progress towards raising awareness and understanding of the heat transition

Contract 1. HOME OWNER ELECTRIFICATION TRACKER SURVEY

Supplier

- [Electrify Research](#)

Contract value

- £12,000 excluding VAT
- £14,400 including VAT

Below the relevant threshold

Award decision date

12 June 2025

Earliest date the contract will be signed

18 July 2025

Contract dates (estimated)

- 21 July 2025 to 17 July 2026
- Possible extension to 18 July 2027
- 1 year, 11 months, 29 days

Description of possible extension:

If we think this could be beneficial for other departments as well we might extend .

Main procurement category

Services

Options

The right to additional purchases while the contract is valid.

There are options to get access to more features as part of the subscription. We would consider this if there is a lot of appetite for DESNZ teams to get more licences.

CPV classifications

- 73110000 - Research services

Procedure

Procedure type

Below threshold - without competition
