II.2.4) Description of the procurement

As part of this opportunity, the County Council of the City and County of Cardiff (the “Contracting Authority”) will also be running a procurement for a call-off contract under Lot 6a of the Framework Agreement for the demolition of Aberthaw Power Station (the “Aberthaw Contract”) on behalf of the CCR Energy Limited ("CCR").

Aberthaw Power Station is a coal fired power station located in Aberthaw, Vale of Glamorgan on the south coast of Wales (the ‘Site’). The site comprises buildings and other features associated with the Aberthaw B coal-fired power station. This was constructed in the late 1960s and opened in 1971, operating alongside Aberthaw A which was officially ‘opened’ in 1963. Aberthaw A operated until 1995 and was demolished by 1998, whilst Aberthaw B closed in March 2020. The Contract for demolition of Aberthaw Power Station is due to be awarded and for works to commence in 2023.

The Contractor shall enter into a ‘Fixed Price’ design and demolish Contract with CCR and undertake the works in compliance with the stated performance requirements and objectives described in this Scope. The project will involve the design, management and implementation of decontamination and demolition works to meet the CCR’s objectives at Aberthaw Power Station. The Contractor is to undertake duties as Principal Contractor and Principal Designer and is responsible for all design.

A number of stages of work may be required to fulfil the objectives as a single works package. Under the terms of Contract, the Contractor will be required to determine, design and implement the works that are required in order to deliver the Scope. The detailed requirements of the works are set out in the tender documentation. Accompanying drawings, records and details are provided within the Site Information.

The Contractor should note that they will be responsible for site security and asset management elements during the demolition works. These are outlined in detail but in

summary these works will include maintenance of all drainage systems, operations of skimmers and interceptors, ongoing dewatering of basements and deep structures, monitoring of cooling water inlet and outlet systems (including off-shore CW structures), maintenance and repair of stack lighting and off-shore caisson lighting and operation of all associated asset management systems. Please refer to tender documentation for further information.

II.2.5) Award criteria
